Lactanet Expands Lac-T Herd Management Software into Ontario

September 23, 2025, Guelph, Ontario and Sainte-Anne-de-Bellevue, Québec

Lactanet is proud to announce the expansion of Lac-T herd management software into Ontario, marking a major milestone in advancing technology solutions that are ideal for small and medium size herds.

Already a trusted product by dairy producers in Quebec and the Maritimes, Lac-T is an affordable all-in-one platform designed to simplify herd data management, support on-farm decisions, and help improve productivity.

“We’re excited to bring Lac-T to Ontario producers and offer a new level of flexibility and efficiency in herd management,” says Barbara Paquet, Lactanet Board Chair. “Lac-T is more than just a record-keeping tool — it’s a trusted herd management tool with over a decade of proven success in tie-stall dairies.”

“Now, Ontario dairy producers with smaller herds can access the powerful features of Lac-T, including herd insights, mobile access, and the continuous improvement of proAction® practices for a high-performing herd,” mentions Lactanet’s Chief Executive Officer, Neil Petreny.

Key Features of Lac-T:

- Intuitive dashboards and mobile access for cow-side efficiency
- Easy tracking of health treatments and intervention
- Streamlined reproduction and breeding management
- Fully integrated with Lactanet’s services and support
- Quick tag activation and event reporting to DairyTrace/SimpliTrace

The Lac-T support team offers a 30-day free trial and will work directly with Ontario producers to ensure a smooth transition, offering onboarding, training, and technical support. This expansion represents an important step in empowering herds and supporting all milking systems with reliable data and tools for long-term success. To learn more about Lac-T, Click here.
