

# Milk feeding plan

## Plan at 10 L/d

**RECOMMENDATION:** Large breeds:  $\geq 8\text{L/d}$  Small breeds:  $\geq 6\text{L/d}$

Day	Milk type	Daily quantity (L)
1	Colostrum (First 2 meals)	Unrestricted
2 and 3	Transition milk	6 L
4 to 7	Whole milk or milk replacer	8 L
8 to 50	Whole milk or milk replacer	10 L
51 to 55	Whole milk or milk replacer	5 L
56 to 60	Whole milk or milk replacer	2 L

### Notes:

- It is recommended to feed **EXCELLENT** colostrum quality from the first milking for the first 2 meals
- It is recommended to feed calves 3 meals a day whenever feeding more than 8L/d
- It is recommended to wean calves whenever they are eating 2 kg of calf starter/day
- At weaning, whenever the calf eats 2 kg of calf starter, it is preferable to feed 1 meal of 2L instead of 2 meals of 1L each.

# Milk feeding plan

## Plan from 10 to 8 L/d

**RECOMMENDATION:** Large breeds:  $\geq 8\text{L/d}$  Small breeds:  $\geq 6\text{L/d}$

Day	Milk type	Daily quantity (L)
1	Colostrum (First 2 meals)	Unrestricted
2 and 3	Transition milk	6 L
4 to 7	Whole milk or milk replacer	8 L
8 to 30	Whole milk or milk replacer	10 L
31 to 50	Whole milk or milk replacer	8 L
51 to 55	Whole milk or milk replacer	4 L
56 to 60	Whole milk or milk replacer	2 L

### Notes:

- It is recommended to feed **EXCELLENT** colostrum quality from the first milking for the first 2 meals
- It is recommended to feed calves 3 meals a day whenever feeding more than 8L/d
- It is recommended to wean calves whenever they are eating 2 kg of calf starter/day
- At weaning, whenever the calf eats 2 kg of calf starter, it is preferable to feed 1 meal of 2L instead of 2 meals of 1L each.

# Milk feeding plan

## Plan at 9 L/d

**RECOMMENDATION:** Large breeds:  $\geq 8\text{L/d}$  Small breeds:  $\geq 6\text{L/d}$

Day	Milk type	Daily quantity (L)
1	Colostrum (First 2 meals)	Unrestricted
2 and 3	Transition milk	6 L
4 to 7	Whole milk or milk replacer	8 L
8 to 50	Whole milk or milk replacer	9 L
51 to 55	Whole milk or milk replacer	5 L
56 to 60	Whole milk or milk replacer	2 L

### Notes:

- It is recommended to feed **EXCELLENT** colostrum quality from the first milking for the first 2 meals
- It is recommended to feed calves 3 meals a day whenever feeding more than 8L/d
- It is recommended to wean calves whenever they are eating 2 kg of calf starter/day
- At weaning, whenever the calf eats 2 kg of calf starter, it is preferable to feed 1 meal of 2L instead of 2 meals of 1L each.

# Milk feeding plan

## Plan at 8 L/d

**RECOMMENDATION:** Large breeds:  $\geq 8\text{L/d}$  Small breeds:  $\geq 6\text{L/d}$

Day	Milk type	Daily quantity (L)
1	Colostrum (First 2 meals)	Unrestricted
2 and 3	Transition milk	6 L
4 to 50	Whole milk or milk replacer	8 L
51 to 55	Whole milk or milk replacer	4 L
56 to 60	Whole milk or milk replacer	2 L

### Notes:
