The incumbent will be involved in day-to-day milk testing and will perform other duties as needed. He/She will report to the Laboratory Manager and will

- Perform high throughput testing of raw milk sample using automated IR analyzers
- Perform multi-assay testing of raw milk samples using numerous ELISA kits
- Perform non-technical laboratory duties related to the analysis of milk samples
- Perform clerical duties as required and other duties as assigned

Requirements

- Biology- or chemistry-based diploma or degree (required)
- Experience:
 - Minimum 2 years working in a laboratory
 - Working in a high-throughput, deadline driven environment
 - Running IR analysers and/or cell counter instruments an asset
- Competency:
 - Operate high-speed, computerized testing equipment
 - Use pipettes and general laboratory equipment
 - Follow approved test procedures without deviations
 - Strong proficiency with Microsoft Excel is a must
 - Excellent time management is critical
 - High attention to detail and problem-solving abilities
- General:
 - Familiar with ISO 17025
 - Strong attention to detail
 - Focus on customer, results, and quality
 - Strong communication and interpersonal skills
 - Excellent work ethic with strong sense of team

Working Conditions

Normal laboratory work conditions. Please note, this position requires standing for extended periods.

Why work at Lactanet

We are a dynamic organisation and value the well-being of our employees. We offer health and wellness programs, competitive salary, and benefits (group insurance and pension plan), training and professional development opportunities, a stimulating, progressive and collaborative work environment, and many other benefits.
