

Data Integration Specialist National

Lactanet is looking for a Data Integration Specialist who will be responsible for reviewing, upgrading, and creating input/output processes. In collaboration with IT colleagues, he/she will be involved in testing and developing solutions to automate manual processes. Finally, the successful candidate will create or modify documentation to support these solutions.

Position Overview

- Participate in the review, upgrade, and creation of existing input/output processes
- Document input/output processes
- Participate in team member discussions to develop solutions and define requirements
- Perform testing on all upgrades and new solutions
- Provide support for these processes as required
- Provide presentations of solutions and recommendations, to stakeholders
- Contribute to the development and maintenance of a healthy and stimulating work environment

Qualifications & Experience

- University degree or college diploma in computer science or any other equivalent degree
- Excellent understanding of Lactanet on-farm processes, interfaces and software such as DairyComp305, DairyComp305 Interface and DairyComp305 XML, Lac-T, Ori-Automate, COFS (asset)
- Good understanding of the central system input/output processes (asset)
- Proficiency in software, hardware (Microsoft Windows and Office 365)
- Fluency in written and spoken English
- Autonomy and initiative
- Ability to work in a team

Working conditions

Normal office working conditions (hybrid or remote). The candidate can have their main office in one of Lactanet's offices in Saint-Anne de Bellevue (Quebec) or Guelph (Ontario). Occasional travel might be required.
