

CAREER OPPORTUNITY

Business Analyst - Operation National

We are actively seeking a Business Analyst - Operations for a permanent full-time position. The incumbent will be responsible for analyzing the context and business needs of the organization and the development of new products. This person will also have to draw up a portrait of the current situation of Lactanet's products and services, the different business realities as well as document the needs and propose options analysis.

Position Overview

- Document current business processes between various teams including process inputs and outputs to optimize planning, execution and knowledge transfer of projects managed by the Project Office.
- Collect, document, communicate and follow up on business needs and product requirements developed for projects.
- Conduct impact analyses for projects and systems processes in place.
- Conduct option analyses to assist decision-making bodies.
- Responsible for quality control activities of products developed within the framework of projects in order to meet the customer's success criteria, identified at the beginning of the project.
- Work in close collaboration with the Promoters, Experts and Project Managers, acting as a conduit between the Business and Execution teams.
- Carry out and document the transfer of knowledge to the Operations teams at the end of the project (Closing).

Qualifications & Experience

- Bachelor's degree in business, project management, operations engineering, information technology or an appropriate discipline
- Business Analyst Certification (PBA)
- A minimum of five (5) years of relevant experience in a similar position
- Bilingualism in French and English, both written and spoken
- Mastery of best practices in business process documentation

How to Apply

If you meet the qualification for this position, please send us your resume with an email subject line 'Business Analyst' to careers@lactanet.ca.
