PROGRESS REPORT ADVERTISING OPPORTUNITIES

Lactanet is the leading dairy herd improvement organization responsible for milk recording, genetic evaluations, knowledge transfer and dairy cattle traceability.

As a farmer-run organization serving more than 8,000 Canadian dairy producers, Lactanet provides products, services and herd management solutions for efficient, profitable and sustainable dairy operations.

Connect With Canadian Dairy Producers

Each spring, Lactanet releases Progress Reports for each region across Canada. As our flagship publication, each edition showcases top managed herds, publishable herd data, statistics, valuable benchmarks by province, and articles from dairy experts.

Collectively, the publications reach over 10,000 dairy producers, dairy farm advisors and industry partners throughout Canada.

Printed Progress Reports are distributed to Lactanet customers in May and digital versions are posted on-line in June at lactanet.ca.
