

CAREER OPPORTUNITY

Database Administrator

National

You will be responsible for assisting in the management and maintenance of our company's databases, ensuring data integrity and availability. This would include both Oracle and Microsoft SQL Server. You will work closely with the Senior Database Administrator to implement data storage solutions, troubleshoot issues, and support database development projects.

Position Overview

- Collaborate with software developers to design and develop new databases or modify existing ones to meet specific business needs.
- Create efficient database structures and ensure data integrity.
- Help in troubleshooting any database-related issues.
- Establish regular data backup procedures and implement recovery mechanisms.
- Monitoring of backup processes to ensure success.
- Install and configure database management systems (DBMS) software, ensuring it meets organizational requirements and standards.
- Set up user accounts and access permissions.
- Monitor database performance, identifying and resolving issues related to speed, scalability, and reliability.
- Manage user access to databases, ensuring appropriate permission and access levels.
- Maintain data security and integrity.
- Explore new information from Oracle and Microsoft to see how this might pertain to Lactanet and share with the team.

Qualifications & Experience

- College diploma in computer science or equivalent training
- At least three years' experience in a similar position
- Bilingualism in French and English
- Strong understanding of database management systems, such as Oracle or Microsoft SQL Server.
- Familiarity with database design principles and data modelling techniques.
- Proficiency in SQL and experience with database administration tasks, such as creating stored procedures, triggers, and views.
- Knowledge of database security best practices and experience implementing data access controls.
- Good understanding of Linux, AIX along with Korn and Bash shell

Working Conditions

Normal office working conditions with telecommuting or hybrid option at one of our offices in Sainte-Anne-de-Bellevue, Montreal or Guelph, Ontario.

How to Apply

If you meet the qualification for this position, please send us your resume with an email subject line, 'Database Administrator' to careers@lactanet.ca.
